Knowing how much to save for retirement can help you on the trajectory to meet your long-term goals. To be financially ready to retire, aim to have 10 times (10x) your final salary saved by age 67. **Along the way, try to have the following multiples of your salary saved at each of your milestone birthdays:**

- **1x** Age 30
- **3x** Age 40
- **6x** Age 50
- **8x** Age 60
- **10x** Age 67

Fidelity suggests saving at **least 15% of your income for retirement**, including employer contributions. If you’re off track consider:

- Saving enough to get your full company match.
- Increasing your savings rate by at least 1% every year.
